Camp Little Eagle Updates.....

After two weeks of summer camp, the number of campers we have had each week has surpassed last year's numbers by a large amount. We have done some pretty cool and fun things, including a visit to the HeathWorks Museum in South Bend, time at the library learning how to research different topics, and getting back to nature on the walking trails at Winona Lake. Help us keep Camp Little Eagle going at an all-time high and let us enjoy our summer with your little camper. We know we can put a smile on their face and knowledge in their brains!!

Activities for Week 3: Wet N' Wild Week

Camp Little Eagle has been taken over by H2O!! Everything we will be doing this week has to do with that wonderfully wet and refreshing thing known as WATER. Campers will experience a camp wide water balloon war, and participate in our water relays where they have to transport water from one bucket to another bucket....did I mention the cup they will be using to do this has a hole in the bottom? We will be making a field trip to the totally awesome Pine Lake Water Park on Wednesday. Last but not least, let's not forget about the GIGANTIC SLIP N' SLIDE!! This slip n' slide is over 30 feet long, 15 feet wide and is covered with water and soap. Campers won't be able to slow down if they try. Come out and get wet at Camp Little!!

Pine Lake Water Park
Swim, slide, play on the beach, or take a paddle boat out on the lake. Jump off the 30 foot tower or swing over the lake on the cable ride. Enjoy the lily pad walk and the AquaPlay area with a tipping bucket. There's something for everyone at Pine Lake!

Meet some Camp Little Eagle Counselors!

Daphne Duncan

"Daphne and Natalie Duncan are first year camp counselors but have the confidence of seasoned counselors. Their energy and excitement towards the kids and the activities is definitely evident to me as well as the kids."

Natalie Duncan
