HOMESCHOOL SWIM GROUP SWIM LESSONS

COMBINED STAGE A/B | Caregivers accompany children in this stage. This class introduces infants and toddlers to the aquatic environment through exploration and also encourages them to enjoy themselves while learning about the water with a trusted adult. Children will be introduced to floating, blowing bubbles, and fundamental water safety and aquatic skills.

STAGE 1 | Caregivers accompany children in this stage. With the support of the caregiver, students will develop comfort with the underwater exploration and learn to safely exit in the event of falling into a body of water. This stage is intended for those with little to no lessons experience other than the parent-child classes and those with little comfort in the water.

STAGE 2 | Caregivers accompany children in this stage. Students will focus on body position and control, directional change, and forward movement in the water while also continuing to practice how to safely exit in the event of falling into a body of water. This class is intended for those who have COMPLETED STAGE 1 or having completed at least 2 years of organized lessons other than parent-child classes. Student must have a visible level of comfort in the water while being assisted.

STAGE 3 (WARM WATER) | Caregivers accompany children in this stage. Students will learn how to swim longer distances. This stage also introduces rhythmic breathing and integrated arm and leg action. This class is intended for those who have COMPLETED STAGE 2 or have at least 3 years of organized lessons other than

parent-child classes. Student must have a visible level of comfort in the water while being assisted.

STAGE 4 | Students in this stage develop stroke technique in front crawl, backstroke, and breaststroke. They will begin to learn the butterfly kick and how to dive from the wall at the 9 foot level. Water safety is reinforced through treading water and elementary back stroke. This class will incorporate swimming lengths of the pool to build on endurance levels. This class is intended for those who have COMPLETED STAGE 3 and have FULL independence in any depth of water unassisted with proper freestyle stroke technique.

STAGE 5 | Students in this stage will work on stroke technique and learn all major competitive strokes. This stage will incorporate learning how to dive from the diving blocks. Emphasis on water safety continues through treading water and sidestroke. This class is intended for those who have COMPLETED STAGE 4.

STAGE 6 | Students in this class work on endurance and stamina of all 4 strokes and discover how to incorporate swimming into a healthy lifestyle and prepare students to enter competitive swimming. This class is intended for those who have COMPLETED STAGE 5.
